2022 Supply Chain Leadership Academy Virtual Sprints

CSCR® Corporate Sponsor Companies receive four pre-paid seats per virtual sprint offering (\$199 for each additional registration). For questions or to register for a sprint, contact us at cscr@smeal.psu.edu.

Leading the Modern Supply Chain

Jan. 10 - 14

Registration Cutoff
Jan. 2

Current supply chain research suggests that much of the future value creation in the supply chain will occur as leaders at all levels of the organization work to build a seamless end-to-end supply chain. *Leading the Modern Supply Chain* introduces the concept and implications of the end-to-end supply chain.

Total Cost of Ownership Series (Week 1)

Jan. 24 - 28

Registration Cutoff
Jan. 16

The most successful procurement professionals develop strong Total Cost of Ownership (TCO) behaviors. These professionals take a TCO approach into account in their procurement decisions, use analytics and spreadsheet models to analyze suppliers, advise cross-functional teams on issues like: supplier selection, design decisions, and timing considerations based on TCO analysis.

Defining Ways to Improve Your Supply Chain

Feb. 7 - 11

Registration Cutoff
Jan. 30

Defining Ways to Improve Your Supply Chain encourages participants to find improvement opportunities in the supply chain that can create competitive advantage. Leaders will learn to compare and prioritize opportunities by collecting data, evaluating cost/benefit, considering ease of implementation, and assessing risk for each opportunity.

Total Cost of Ownership Series (Week 2)

Feb. 21 - 25

Registration Cutoff
Feb. 13

The most successful procurement professionals develop strong Total Cost of Ownership (TCO) behaviors. These professionals take a TCO approach into account in their procurement decisions, use analytics and spreadsheet models to analyze suppliers, advise cross-functional teams on issues like: supplier selection, design decisions, and timing considerations based on TCO analysis.

Finding Opportunities in Your End-to-End Supply Chain

Mar. 7 - 11

Registration Cutoff
Mar. 1

Finding Opportunities in Your End-to-End Supply Chain reviews factors that are driving change across supply chains. Leaders learn why globalization, new technologies, omnichannel strategies, sustainability, and other factors are forcing supply chains to evolve.

2022 Supply Chain Leadership Academy Virtual Sprints

Total Cost of Ownership Series (Week 3)	Mar. 21 - 25 Registration Cutoff Mar. 15
<p>The most successful procurement professionals develop strong Total Cost of Ownership (TCO) behaviors. These professionals take a TCO approach into account in their procurement decisions, use analytics and spreadsheet models to analyze suppliers, advise cross-functional teams on issues like: supplier selection, design decisions, and timing considerations based on TCO analysis.</p>	
Aligning Supply Chain Goals with Your Corporate Strategy	Apr. 11 - 15 Registration Cutoff Apr. 5
<p><i>Aligning Supply Chain Goals with Your Corporate Strategy</i> asks leaders to consider process-led transformation work that could strengthen the alignment between the supply chain strategy and the company's strategic priorities.</p>	
Logistics Series (Week 1): Critical Decisions in Logistics Management	Apr. 25 - 29 Registration Cutoff Apr. 19
<p>In <i>Critical Decisions in Logistics Management</i>, leaders dive into cost, design, and network concepts of transportation, warehousing, and other distribution logistics, and consider tradeoffs the organization must make to develop efficient and effective distribution systems.</p>	
Supply Chain Alignment and Orchestration	May 9 - 13 Registration Cutoff May 3
<p>The goal of every supply chain team is to achieve complete supply chain orchestration where executives, employees and partners all have complete visibility across the supply chain and real-time information to make good decisions.</p>	
Logistics Series (Week 2): Optimizing Distribution Network Strategy	May 23 - 27 Registration Cutoff May 17
<p>Distribution Network Strategies (DNS) work to achieve the lowest distribution costs by balancing the numbers, sizes, and locations of facilities while also achieving exceptional levels of customer service. DNS strategies are continually influenced by eCommerce, channel growth, real estate costs, and other factors.</p>	
Competitive Implications of Demand Planning	Jun. 6 - 10 Registration Cutoff May 31
<p>Supply chains are evolving to serve more customers across more channels, leading to more complex forecasting, demand planning, and inventory management. Leaders discuss ways to improve inventory practices, and discover why cross-functional processes like Sales & Operations Planning (S&OP) are needed to rationalize multiple forecasts and align planning practices across multiple functions.</p>	
Logistics Series (Week 3): Evaluating Opportunities with Third Party Logistics Providers	Jun. 20 - 24 Registration Cutoff Jun. 14
<p>In <i>Evaluating Opportunities with Third Party Logistics Providers</i>, leaders look further into supply chain activities that are 'strategic' versus those that might be managed more effectively by a partner. Participants will evaluate critical advantages and disadvantages of outsourcing as they consider how services offered by 3PL and 4PL companies can augment internal capabilities to keep pace with change.</p>
