The Center for Supply Chain Research™ (CSCR™) at the Penn State Smeal College of Business delivers a broad portfolio of open-enrollment supply chain offerings and multi-program certificates; virtual courses in our Supply Chain Leadership Academy; and custom learning solutions for organizations.

**DEVELOPING LEADERS AT EVERY LEVEL**

Successful enterprises strive to foster finely calibrated combinations of mastery at all levels of the organization, leveraging internal sources of knowledge along with external knowledge from sources like CSCR™ to do so.

**External Knowledge: This is How the Experts Do It**
- Thought leaders, universities, professional organizations; partners like CSCR™.

**Internal Knowledge: This is How We Do It**
- Senior Leaders: Vision and Strategy
- Middle Managers: People & Relationship Management
- Front-Line Professionals: Functional Skills

**ORGANIZATIONAL LEARNING = STRATEGIC ADVANTAGE**

**Connect and Join**

We invite you to learn more about CSCR™. Knowledge enhancement is one aspect of a mission that includes research, access to emerging talent from the nation’s leading supply chain institution, and opportunities to network with other supply chain professionals. Reach out today to discuss the benefits of our Corporate Sponsorship Program including prepaid seats in award-winning open enrollment programs, priority course registration, sponsor discounts, and online knowledge repository access.

PennState
Smeal College of Business
Our Supply Chain Academy provides a virtual platform for organizations to engage their supply chain leaders. The company-sponsored, cohort-based experience is structured into focused sprints that build on each other and combine asynchronous and live sessions. Enhance existing organizational expertise and improve supply chain efficiency and effectiveness.

**OPEN-ENROLLMENT PROGRAMS**

Two- and three-day supply chain programs are delivered in the fall and spring on the Penn State University Park campus and combine deep technical knowledge, leadership strategies, and cross-functional insights for making large- and small-scale improvements. Our Penn State Executive Programs portfolio includes programs such as Achieving Supply Chain Transformation, Building a Sustainable Supply Chain, and Introduction to Supply Chain Analytics, among many others.

**OPEN-ENROLLMENT CERTIFICATES**

By completing a combination of three open-enrollment programs, professionals can earn a Professional Certificate in Supply Chain Operations, Management, or Leadership and showcase their commitment to professional development and the organization’s success.

**SUPPLY CHAIN ACADEMY**

By completing a combination of three open-enrollment programs, professionals can earn a Professional Certificate in Supply Chain Operations, Management, or Leadership and showcase their commitment to professional development and the organization’s success.

**TECHNICAL STRENGTHS**

- Achieving End-to-End Supply Chain Excellence: The Fundamentals

**TACTICAL EXECUTION**

- Building Integrated Supply Networks: From Suppliers to Customers

**STRATEGIC LEADERSHIP**

- Becoming a Great Supply Chain Leader: Maximizing Value from Strategic Resources

**CUSTOMIZED LEARNING SOLUTIONS**

In partnership with Penn State Executive Programs, we collaborate with your team to develop customized engagements that are focused on the unique goals, competitive challenges, and performance needs of your supply chain organization. By employing a range of learning designs, we ensure that each custom engagement results in measurable solutions.
