

LEMA Lab First-Time User Contract

Please read the following guidelines, sign, and scan and email to the LEMA Director:

Tony Kwasnica (kwasnica@psu.edu).

Important Things to Know:

1. The lab does NOT have blanket IRB approval. You will need to submit an IRB application at <http://www.research.psu.edu/orp/humans>.
2. The lab is simply a dedicated room with 30 computer workstations and some other amenities. Our other major resource is an online recruiting and lab scheduling system.
3. In general, the lab does not provide any direct 'support' of the ongoing research in the form of administration, software programming, etc.
4. Please read the Laboratory Usage Guidelines:
<http://www.smeal.psu.edu/lema/documents/lemauseguide.pdf>.

LEMA Usage Requirements:

1. Any experiments conducted through the lab pay people based upon the decisions they make (e.g. not just a flat show up fee). This is an expectation of our recruited subjects and differentiates us from experiments in other areas.
2. There is no deception practiced.
3. Any published research using the LEMA lab appropriately recognizes the laboratory in the acknowledgments or text.

I, _____, have read the above and will comply with all LEMA operating procedures.
